Project Configuration Management Deployment Plan (Tentative)

Three Mod Partner projects have been identified to begin CM deployment in January 2002:
    FMS Phase IV
    FP Data Mart Release 2 & 3
    e-Campus Based

Target dates for project visits:
week of January 14 (one)
week of January 21 (two)

This plan will need to be coordinated with the individual SFA project managers concerned as well as their Mod Partner counterparts.

Out of a total of 54 current projects, 26 have been selected as possible in-scope projects. This group may be modified based on further research.
